AURUM

Aurum Enterprises SAS is a Colombian company, headquartered in Cali, engaged in the international trading and export of gold, silver and platinum.

Every transaction follows three disciplines: review of the origin of the metal and of its supporting documents, definition of the commercial terms, and coordination of secure international logistics.

The company works with BBVA for banking services and with Brink's for the transport and custody of valuables. It operates within the framework of the Colombian authorities ANM and UIAF.

Aurum seeks long-term business relationships with international buyers.

OUR PURPOSE

Leading the formalisation of Colombia's precious metals trade.

Mission

We are a Colombian company dedicated to the international trading and export of precious metals, mainly gold and silver. We are committed to leading the transformation and formalisation of the sector through legal, transparent, responsible and sustainable operations.

We work in coordination with government institutions, producers, suppliers and other actors in the supply chain. Together we promote legality, traceability and verification of the legitimate origin of minerals, in compliance with current regulations.

Our purpose is to build trust in national and international markets, and to contribute to a formal, secure and internationally recognised precious metals trade chain.

Vision 2030

By 2030, to be a leading company in Colombia, recognised internationally for the legal trading and export of precious metals, and for promoting formalisation, transparency, traceability and good practice throughout the supply chain.

We aspire to be a strategic ally of the Government, oversight institutions, producers and international buyers as the sector moves towards a formal, competitive, sustainable and responsible business model.

We seek to position Colombia as an international benchmark in legal and transparent gold and silver trade.

RISK AND CONTROL

We name the risks of the trade, and the control behind each one.

Precious metals trading carries well-known risks. The table sets out how each one is addressed today.

RISK	HOW IT IS ADDRESSED TODAY
Provenance	Review of the metal's provenance and of the documents that support its origin, before trading.
Financial crime	Operations under the Colombian framework overseen by UIAF. Banking services through BBVA.
Regulatory	Coordination with government institutions. ANM is the authority of the mining sector.
Logistics and custody	Secure transport and custody of valuables through Brink's. Shipment documentation coordinated by Aurum.
Supply concentration	Stated capacity relates to one counterparty, the Community Council of Condoto.

WHY AURUM
